Pondok Bambu Asri street Block A4/B4 No.57, East Jakarta

I am a seventh-semester Informatics undergraduate at Universitas Singaperbangsa Karawang, with hands-on experience developing web projects as part of my coursework. I possess a solid foundation in software development principles and a strong interest in building user-centered web applications. Highly motivated, fast-learning, and committed to continuous improvement, I am seeking an entry-level Web Developer position where I can contribute to real-world projects and further develop my technical skills.

Organization Experiences
